Corruption score, GDP per Country for Actual

Findings/ Assumptions

There's a correlation between GDP and Corruption. CPI of CLMV is low. If a country is corrupted, the foreign country will invest less which will lead to low economic.

PROPOSED RECOMMENDATIONS

Correlation between minimum wage and CPI

Recommendations

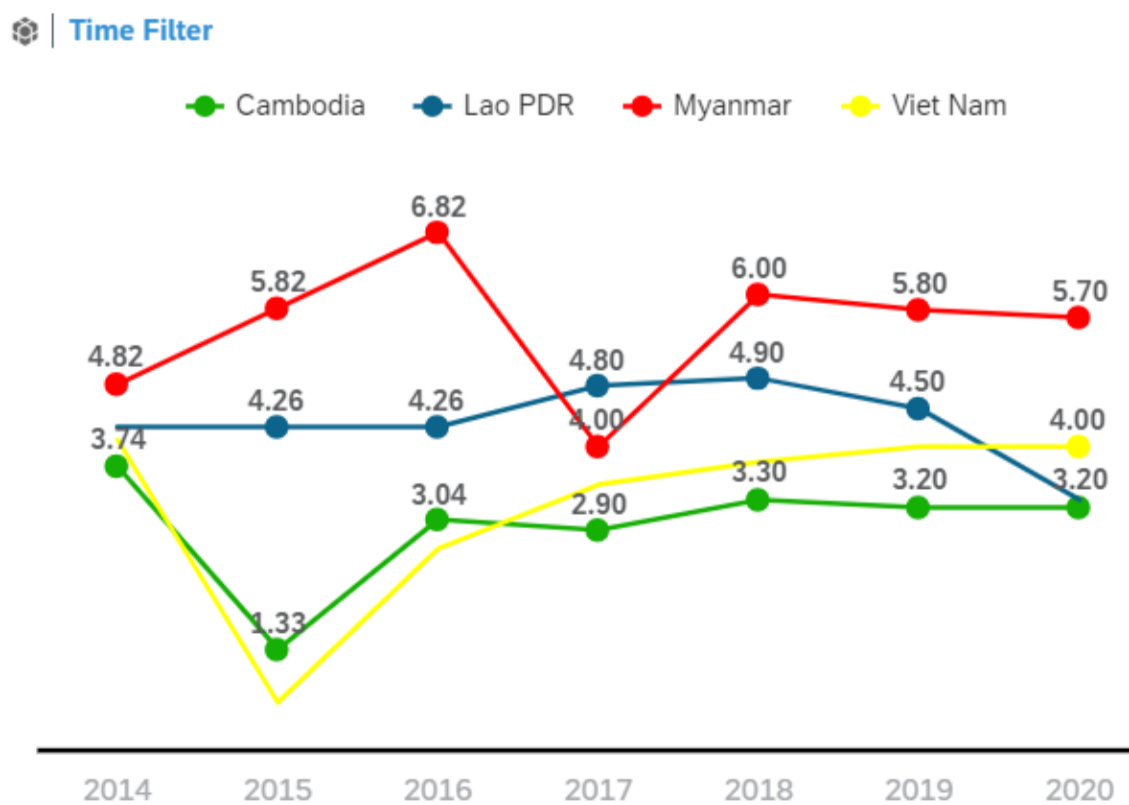

- Increase Minimum Wage
- Deploy Supreme Audit Institutions

By doing so, CLMV's GDP can increase up to 29%

GDP forecast to 2020 for CLMV countries
